Style mock-up: a person, hair and wigs

Mock-up only. Students cannot see or pick any of this. 2026-10-15

One person figure for every student: the same body as the animals, so all 28 clothing and accessory items fit. Six skin tones are shown; any color works.

Hair is a new "wig" slot with 8 styles: Short Hair, Spiky Hair, Curly Puff, Bob, Long Hair, Ponytail, Pigtails and Space Buns, each in any color or pattern. Every wig is shaped from the head it sits on, so it also fits the cat, dog, frog, capybara, chicken, squirrel and fox.

Under a cap, beanie, top hat, bucket hat or cheese hat, only the hair below the brim shows. Party hats, crowns and headphones sit on top of the hair.

Pages 2 to 4: a class of people. Pages 5 to 7: the person in every item.
Pages 8 to 11: every wig on every character. Pages 12 and 13: hair under every hat.
Next: your OK or changes (styles, colors, which animals can wear wigs).
