New Style animals: chicken, squirrel, fox

Mock-up only. Not on the live site. 2026-10-15

All three share the same body as the cat, dog, frog and capybara,
so every one of the 28 clothing and accessory items fits with no special versions.

Chicken: white feathers, red comb and wattle, orange beak and feet, fanned tail feathers.
  The comb tucks away under any hat so hats sit flat.
Squirrel: big curled bushy tail, small ears, two front teeth.
Fox: pointed snout, white cheeks and chest, tall ears, white-tipped tail.

Pages 2 and 3: all 7 animals in the same 8 outfits.
Pages 4 to 12: every single item on each new animal from the front, side and back.

Like the other animals, a backpack or cape tucks the tail away,
and hats with a full crown fold the tall ears down.
Next: your OK on the looks (and any more animals), then they go live in the Style picker.
